

ECO-TREAT

Ecofriendly Surface Treatment

Greentech stripping and cleaning processes

Durable coatings for “changing the face of metals”

Hydrophobic coating with scratch & abrasion resistance

Permanent coating for mold release application of composite and plastic parts

Zingophobic coating

Paint stripping

Robotised stripping of jigs “in home and on line”

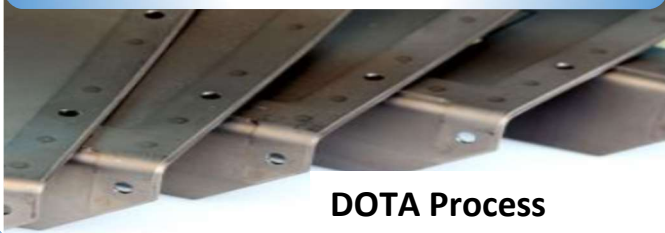

With compressed air or ice blasting

Clean-in-Line
Paint stripping technology, “in home”

Innovations in progress

Robotised stripping of Titanium oxides

DOTA Process

Omniphobic coating

Antidirt & anticorrosion coating, in just one layer

Glaciophobic coating with electrical conductivity

Special cleaning machine with additive functions for heavy and large steel parts loaded with grease

ECO-CLEANER Process
